### SECOND

### Annual Report

OF THE

### CATAWISSA RAIL ROAD COMPANY,

FOR THE YEAR ENDING

December 31st, 1861.

PHILADELPHIA:

H. G. LEISENRING, PRINTER,

No. 128 S. Second St.

1862.

### ANNUAL MEETING.

An Annual Meeting of the Stockholders of the Catawissa Rail Road Company, held in pursuance of the provisions of the charter of said Company, on the 1st day of April, 1862, at 12 o'clock, noon, at the Company's Office, No. 308 Walnut St., Philadelphia, and called also in pursuance of the notice of which the following is a copy:

"Office Catawissa Railroad Company, No. 308 Walnut Street, Philadelphia, March 10th, 1862. Notice to Stockholders.

"The Annual Meeting of the Stockholders of the Company, will be held on Tuesday the 1st day of April, 1862, at 12 o'clock, noon, at the Company's Office, No. 308 Walnut Street, in the City of Philadelphia.

"The Annual Election for President and Directors, will be held on Monday, the 5th day of May, 1862, at the Company's Office."

WM. R. FISHER, Secretary."

On motion of Mr. S. V. Merriek, Mr. Jos. L. Moss was called to the Chair, and Mr. Wm. R. Fisher, appointed Secretary.

The President read to the meeting the Report of the Board of Directors, for the year ending December 31st, 1861,—as also the Report of the Treasurer and Superintendent.

Mr. Lewis after discussion, offered the following Resolution: Resolved, That the Stockholders do now appoint a committee of seven of their number, with power to fill vacancies, to be appointed by the Stockholders, for the purpose of examining into the causes of the decline of the business of the Road, and that all matters relating thereto, including the Report just read, shall be referred to said committee, with instructions to report at an adjourned meeting this day two weeks. In conformity with the above resolution, the following Stockholders were nominated and chosen as the Committee:

Mr. John Welsh,

- " A. R. M'Henry,
- " Wm. P. Chandler,
- " A. J. Drexel,
- " Byron Woodward,
- " M. Wallace Woodward,
- " Peter Oliphant.

On motion of Mr. Merrick, the Committee was increased to eight, when Mr. S. E. Slaymaker was nominated and chosen.

On motion of Mr. Merrick, the President of the Meeting, (Mr. Jos. L. Moss,) was added to the Committee.

On motion of Mr. Macalester, it was Resolved, That the meeting adjourn to meet this day two weeks, at 12 o'clock, M.

J. L. Moss, Chairman.

WM. R. FISHER,
Secretary.

An adjourned meeting of the Stockholders of the Catawissa Railroad Company, held on the 15th day of April, 1862, at 12 o'clock, noon, at the Company's Office, No. 308 Walnut street, Philadelphia.

The Chairman announced that in consequence of the appointment on the Committee of some Stockholders that were not present, the organization of the Committee was materially delayed, so much so that the sub-committee now on the Road, only

left on the 14th inst. At the request of the officers, a more thorough investigation of the affairs of this Company than the Committee first contemplated has been entered upon, therefore, upon motion of Mr. F. A. Van Dyke, Jr., it was

Resolved, That the meeting adjourn till Friday next, the 18th instant, at 1 o'clock, P. M., and that public notice be given in the daily Press, Inquirer, Bulletin, Ledger and North American and United States Gazette.

On motion adjourned.

Jos. L. Moss, Chairman.

WM. R. FISHER, Secretary.

Adjourned Meeting of the Catawissa Railroad Company.

Philadelphia, April 18th, 1862.

An adjourned meeting of the Stockholders of the Catawissa Railroad Company was held this day, at one o'clock, P. M., at the Company's Office, No. 308 Walnut street.

Mr. Jos. L. Moss, in the Chair.

The Secretary of the Committee of Stockholders, appointed at the Annual Meeting held April 1, 1862, to whom was referred the Report of the President and Directors, read the following:—

The Committee appointed by the Stockholders at the meeting of 1st inst., submit the following for your consideration. Having been delayed in their organization by the refusal of their chairman and another member to serve, it became necessary, owing to the request of the officers of the Company that a thorough investigation should be made, to adjourn the meeting of last Tuesday until to-day. The Committee availed and sought every opportunity to examine parties as to the allegations of a decline of the business of the road in the past year; the condition of the road and stock now, and when received by the present officers; the comparative incomes and expenses;

the correspondence submitted to them touching complaints of the customers on the line of the road and elsewhere; the coal property of the Company; the very excellent rules and regulations for the care and duties of all the employees on the road, etc.

| From Receiver's accounts we extract:          |   |              |
|---|---|--------------|
| Total receipts (1860)                         |   | \$259,287 89 |
| " expenses "                                  |   | 238,035 22   |
| Net result, about 8 per cent. profit          | • | \$21,252 67  |
| Total receipts, 1861, by Mr. Du Puy           |   | \$219,548 37 |
| " expenses, " " "                             | • | 197,958 04   |
| Net result, equal to $10\frac{1}{2}$ per cent |   | \$22,490 33  |

We refer to the annexed tables for the comparative general expenses during the Receivership (1860), and of Mr. Du Puy (1861), showing a saving per month of \$1713 96.

Comparative statement of general expenses monthly paid during the Receivership in 1860, and by the Catawissa Railroad Company in 1861:

| Saving per month .               | •                      |   |             | \$1,713          | 96 |

Being equal to a saving in this one account alone of \$20,567 52 per annum. On referring to the tables of the monthly income of the past year, owing to the prostration of trade, it is ascertained that the first seven months barely yielded the expenses, while the last few months have produced a demand for all the stock of the Company-thus making up the large bulk of the yearly income; hence arises, during the press of business, the much greater demand for moving capacity than the Company Among the causes which have operated, in a minor degree, to diminish the business of the Company during the last year, may properly be included the fact that the closing of the affairs of the Catawissa, Williamsport and Erie Railroad Company, and the enormous legal and official expenses attending upon the Receivership, which absorbed so large a proportion of the income of the new company and that which would have been otherwise applied to the repairs of the road during the Receivership, that the new organization was seriously crippled at its very start, and means withdrawn, which, had they remained, would have enabled it to supply much greater facilities for the transaction of the business pressed upon it since last autumn, and from necessity rejected. To show to how great an extent this cause operated, we append here a statement of such expenses, viz:

| Counsel fees   | •        | •        | •       | • |   | \$6,500 | 00 |
|----------------|----------|----------|---------|---|---|---------|----|
| Legal expenses | •        | •        | •       |   | ٠ | 4,162   | 21 |
| Wm. D. Lewis,  | Receiver | c, Comm  | issions |   | • | 13,371  | 91 |
| Wm. D. Lewis,  | Commis   | sions as | Trustee |   |   | 2,500   | 00 |
| Other Trustees |          | •        | •       | • | • | 5,000   | 00 |

Amounting to \$31,534 18

which is more than 34 per cent. of the expenditures for repairs by Mr. Du Puy for the year 1861. A loss of trade of no inconsiderable amount was experienced during the early part of last autumn, by the withdrawal of what was termed the A line, or through line of ears. In the negotiation consequent thereupon, a loss of several weeks of freight, at the time when the Company was much in need of it, was eaused by the refusal of the Elmira Company to agree to the terms demanded by the Reading Railroad Company for the use of their ears. A further loss of trade was experienced in the demand of a connecting road from this Road, to enter into contracts for earrying coal at losing rates to us, while receiving remunerating rates themselves.

Your Committee cannot but feel the necessity of cultivating the most friendly relations with all connecting lines, but at the same time approve of the policy of the present management's refusal to allow our road to be used for the benefit of others, exclusively, or without receiving some consideration in return themselves. The condition of the road, structures and machinery, as also the investigation of complaints of parties at the terminus of the road, required their personal investigation, to further which a sub-committee was appointed to attend thereto—the report of whom is here annexed. Another sub-committee also verified the figures as set forth in the President's last report.

To the Committee of the Stockholders of the Catawissa Railroad Co.:

Gentlemen,—The sub-committee appointed by you to investigate into the complaints made by certain parties, indirectly impugning the present management of the Road, and also to visit

and examine the structures and rolling stock belonging thereto, respectfully submit: That, upon investigation, they find the complaints are merely such as are usually made by shippers during a rush of trade consequent upon unavoidable want of accommodation, all admitting that the Managers of the Road have aeted fairly towards them under the circumstances. parties that were most bold in their written assertions, denied having written the charges when read to them-said they were not true; had no idea when they signed it that it contained such statements; did not know who wrote the letter; were induced to sign it when in ill humor: all the parties conceding that the first seven months of the year 1861 it was impossible for the Road to procure trade, owing to the general depression of business. Herein mainly consists the cause of the diminution of trade for the The lumber trade of that section is rapidly developing itself into a permanent business, the Road being able to carry at remunerative rates in competition with water facilities, all the shippers declaring that it was their interest to give it the preference if proper facilities were afforded them. They estimate that at least one hundred million feet of lumber will be prepared for market in that region during the coming season. The Road, in our opinion, is, and it is everywhere aeknowledged along the route, in much better condition than when it came into the hands of the present management. It however still requires a considerable amount of new cross-ties and iron. We confirm the statement of your President, as regards the bridges, in his last report. We have found your engines capable, and actually doing all the business, (as regards the number of ears hauled by them) as stated in the report, varying from thirteen to twenty-This holds good of them when comparing the winter months of the year with those of former years. Your motive power however is very deficient, having an excess of passenger and a great deficiency of freight engines. dition as reported by your President, is fully confirmed by the investigation of your committee.

To afford the proper facilities for the business offering, it is our opinion that you should have four new first-class coal-burning freight engines, each one of which would be capable of doing as much work as three of those now on the road, and at a saving of expenses that would pay for one-half the cost of an engine during the first year. The action of your Board in authorizing the disposal of five of the useless engines on hand is fully endorsed by us. There is also a great want of ears for the trade, which would be remedied to some extent, if the connecting roads would furnish their *pro rata* proportion.

To accommodate the business offering, it would be necessary to have an additional supply of ears, thirty-four feet in length, for earrying lumber eastward, which could be so arranged as to earry a return freight of coal when your mines are developed. Your Committee have also visited the coal lands, and although not able, upon such investigation, to make any positive report, still such facts were brought to their knowledge as convinces them that you own a valuable coal property, whose development will yield you a handsome income. Parties are now ready to expend large amounts in developing them, if you will construct an outlet for them to your Road.

In conclusion your Committee, from all they have seen and heard while on your Road, are fully satisfied that the present management is entitled to the fullest confidence at your hands, and an earnest effort on your part to earry out their wishes, which can result only in every way advantageous to yourselves.

M. P. Hutchinson, Chairman Sub-Committee.

W. P. CHANDLER,

A. R. McHenry,

S. E. SLAYMAKER.

In conclusion, your Committee feel the importance of urging upon you the imperative necessity of the Stockholders agreeing to the supplement passed by the Legislature, and recommended to your consideration in the annual reports, thereby giving the power to raise the amount specified, and enable them to expend the same, that the Company may be relieved of the difficulties it labors under for want of power and ears to transact the largely increasing business offering.

The Committee believe, with the report of the President

submitted, the eapitalizing of the payments therein shown to be necessary, will result in the early payment of reasonable dividends to the preferred stockholders. All of which is respectfully submitted.

J. L. Moss, Chairman,
A. R. McHenry,
W. P. Chandler,
Byron Woodward,
M. P. Hutchinson,
M. W. Woodward,
P. Oliphant,
S. E. Slaymaker.

Philada., April 18, 1862.

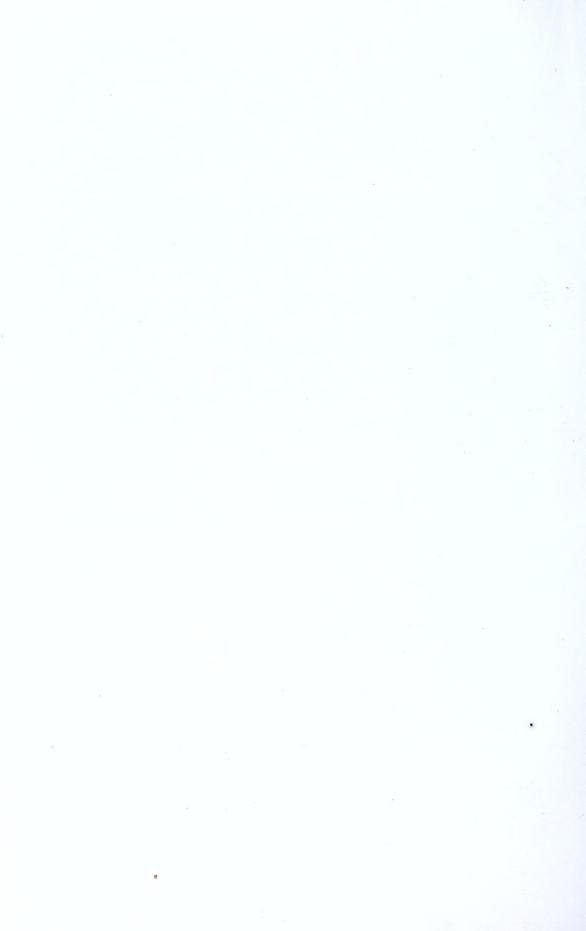

On motion of Mr. Shannon, it was

Resolved, That the Report of the President and Directors with accompanying statements, &c., be adopted and printed with the report of the Committee.

On motion, adjourned.

J. L. Moss, Chairman.

W. R. FISHER,
Secretary.

### Second Annual Report

OF THE

## CATAWISSA RAIL ROAD COMPANY,

1861.

### TO THE STOCKHOLDERS OF THE CATAWISSA RAIL ROAD COMPANY.

The Board of Directors present to your consideration the following statement of the result of the year's business, the condition of your property, and the prospects of the enterprise.

The amount of Capital Stock issued to 1st January, 1862, is as follows:—

| 36,478 Shares | ${\bf Preferred}$ | Stock @ | \$50 each, |   | <b>\$1</b> ,823,900 | 00 |
|---------------|-------------------|---------|------------|---|---------------------|----|
| 12,992 "      | Common            | "       | "          |   | 649,600             | 00 |
| Chattel Bone  | ds, .             | •       | •          | • | 33,500              | 00 |
| Amount,       |                   | •       | •          |   | \$2,507,000         | 00 |

There yet remains to be issued when called for:-

| 7,522 Shares Prefe | erred S | Stock ( | <b>a</b> \$50 | each, |   | \$376,100 | 00 |
|--------------------|---------|---------|---------------|-------|---|-----------|----|
| 10,008 "Com        | mon     | "       | "             | "     | • | 500,400   | 00 |
| Chattel Bonds,     | •       |         |               |       |   | 500       | 00 |
| Amount             |         |         |               |       |   | \$877 000 | 00 |

The results of the year's business, especially that of the last six months, show very favorably. For notwithstanding the general prostration of all our industrial resources, consequent upon the sad political troubles of the country, and the geographical position of the road, which did not admit of its being used for any of the immense trade and travel, required for Government support, the earnings have far exceeded our expectations, and enabled us to make with propriety large expenditures on and for your property, as was promised in the last Annual Report, but not to the amount required, as they were limited by the receipts, and the maturing obligations enjoined upon the company by the decree of the court.

All the debts entailed upon us from the Catawissa, Williamsport and Erie Railroad Company, due prior to 21st March, 1863, have been fully paid.

The roadway and machinery have been improved.

The local business of the road is steadily and largely increasing.

The working expenses have been reduced to the most economical basis.

And the Company has no debt of its own creating; nor one dollar of obligations outstanding, on its own account.

The condensed statement of the earnings, expenses of operating your road, and maintaining and renewing its property during the past year, is as follows:—

| during the past Jean, is as form | 110.     |          |    |           |    |
|----------------------------------|----------|----------|----|-----------|----|
| Receipts of the Road, .          |          | •        |    | \$297,075 | 86 |
| Less rent of four other roads,   | •        | •        | ٠  | 59,527    | 49 |
| Amt. Net Reccipts,               | •        | •        |    | \$219,548 | 37 |
| Expenses of all kinds, covering  | ordina   | ry and e | X- |           |    |
| 1                                | •        | •        |    | 197,058   | 04 |
| Net earnings,                    |          | •        | •  | \$22,490  | 33 |
| Which has been disposed of a     | as follo | ws :—    |    |           |    |
| Interest paid on Chattel Bonds   | ,        |          |    | \$3,650   | 00 |
| Discount and Interest, .         |          | •        |    | 163       | 26 |

|--|-------------------|
| Sundry claims against old Company, .   | . 3,112 07        |
| Balance Receiver's Commissions, Trustees' Com | m-                |
| missions, &c.,   | . 11,475 00       |
| C. W. & E. R. R. Labor and Material debt,  | . 1,080 39        |
| Uncollected dues, 31st December, .   | . 2,253 37        |
| Amount,  | . \$22,490 33     |
| The total expenditures for repairs during  | the year have     |
| amounted to \$91,114 80.   |                   |
| While the renewals to your property, charge  |                   |
| expenses,—for we have no construction, renewal   | or contingent ac- |
| count,—have been as follows:   |                   |
| For Roadway.   |                   |
| 22,383 new Cross-ties,   | . \$5,524 26      |
| 16,875 lbs. new Spikes,  | . 517 50          |
| 7,296 " wrought Chairs,  | . 291 84          |
| 190 Tons Re-Rolled Iron,   | . 3,230 00        |
| 87 ft. Chitisquaqua Bridge,  | . 1,234 62        |
| Timber, Labor, and Iron in Trestles and Brid   | lges, 4,590 24    |
| Amount,  | . \$15,388 46     |
| $For\ Motive\ Power.$  |                   |
| Repairs to Locomotives, Passenger, .   | . \$10,037 82     |
| " " Freight, .   | . 16,126 68       |
| " Tools, Machinery, Shops and Water  | Sta-              |
| tions,   | . 929 12          |
| Amount,  | . \$27,093 62     |
| For Maintenance Cars.  |                   |
| Repairs Passenger and Baggage Cars, .  | . \$7,645 40      |
| " Freight Cars,  | . 20,761 62       |
| " Car Shops, Tools, &c.,   | . 65 48           |
| Amount,  | . \$28,472 50     |
| In all, amounting to   | . \$70,954 58     |
| It would be perfectly legitimate to class fifty  | per cent. of the  |

motive power and ear repairs, say \$27,000, and twenty per eent. of the roadway repairs or \$3,000—in all \$30,000—as renewal expenses proper,—being over and above the ordinary per eentage of expenses solely chargeable to the maintenance of a properly constructed and maintained Roadway and machinery.

As your property was received by your officers in the dilapidated condition, frankly stated in the last Annual Report, these several amounts can be properly added to, and considered as part of the net earnings of the road during the year past.

The legal obligations yet remaining for us to pay, (not ineluding Chattel Mortgage due in 1880, amounting to \$34,000, on which 5 per cent. per annum is paid,) are

| Labor and Mate | erial De | bts of | f the | old Co | ., due | 21st           |          |    |

|     | Amount,         |      |        | •      |          |        | \$65,000 |

The average number of Cars hauled in trains by our engines, both Passenger and Freight Cars, has been  $15\frac{11}{100}$  Cars.

An excellent average, when it is remembered that usually our Passenger train consists of three Cars, and never exceeds four Cars, and also that fully twenty per cent. of our Engine mileage is upon Passenger account.

The repairs made during the year upon our Engines, have been equal to  $9\frac{3}{100}$  cents per mile run.

The repairs upon both Engines and Cars have been  $\frac{4.872}{100000}$  of a cent on the number of tons and passengers moved one mile.

The average cost of Fuel has been reduced from  $\$2\frac{25}{100}$  to  $\$2\frac{20}{100}$  per cord.

During the last half of the year, it was first possible to put in force a new system of Fuel account, which has resulted in a large saving in the amount used, (from eleven cents per mile run to six and a half cents per mile run,) and enables us to avoid all investment of Capital in Stock-wood, while at the same time it ensures to the road full supplies at economical rates.

The condition of your locomotives has been much improved; but their change for coal burning machines would result in yet further economy in the Fuel account.

All new machines purchased should be coal burners.

The general results of the working system of the road is clearly stated in the following tabulated

#### STATEMENT.

| 1861  | 1st 6 mos.<br>2d 6 mos.                            |  |
|---|--|--|
| $ 4,369,415  28,472\frac{50}{1000} $                          | 2,181,467<br>2,187,948                             | Total miles run by Cars.                         |
| $28,472\frac{50}{100}$  |  | Repairs of Cars in Dollars.                      |

| $15\frac{1}{100}$   |  | Average number of Cars hauled<br>by each Engine. |
| $15\frac{1}{100}$ 9,086,723 2,318,458 25,466                  |  | Tons moved one mile.                             |
| 2,318,458   |  | Passengers moved per mile.                       |
|   | $\frac{15,843\frac{30}{100}}{9,623\frac{17}{100}}$ | Value of wood used in Dollars.                   |
| $\frac{47}{100}$ .040036 $8\frac{8}{13}$                      | .05027<br>.02999                                   | Cords used per mile run.                         |
| 8 8   | $\frac{11}{6\frac{1}{2}}$                          | Cost per mile run for fuel.                      |

The Gross Receipts from the several items of business, compare with the two years previous, as follows:

|                | 1859.        | 1860.             | 1861.       |
|----------------|--------------|-------------------|-------------|
| Merchandise, . | . 201,008 83 | 231,429 61        | 176,463 70  |
| Coal,          | . 27,839 26  | 15,247 40         | 12,167 94   |
| Passengers, .  | . 85,811 28  | $80,945\ 06$      | 60,353 $39$ |
| Miscellaneous, | . 14,763 84  | 17,413 23         | 18,190 83   |
| U. S. Mail, .  | . 11,900 00  | <b>11,</b> 900 00 | 11,900 00   |
| Amounts,       | . 341,323 21 | ${356,935} {30}$  | 279,07586   |

Being an average decrease of gross receipts, of  $14\frac{4}{10}$  per cent. against 1861.

·The Total Expenses during the same period compare as follows:

|           | -           | _  | -           | _  |              |
|-----------|-------------|----|-------------|----|--------------|
|           | 1859        |    | 1860.       |    | 1861.        |
| Expenses, | . \$204,323 | 63 | \$246,988 4 | 12 | \$197,058 04 |

Giving an average decrease of working expenses, in favour of 1861 of  $8\frac{9}{10}$  per cent., which, under all the circumstances surrounding us, shows well, and will compare very favorably with any road similarly situated, and not engaged in Government transportation.

To the extended facilities offered by our several competitors for the trade and travel of the country, which our road first drained, and to the universal decrease of all kinds of personal communication consequent upon the financial troubles of the country, should be attributed much of the diminution shown.

It is believed that your enterprise is now standing upon a proper basis, and that by continued judicious encouragement, the local business of your road may be soon developed into a profitable and permanent support.

The remarks made in the last Annual Report, in regard to the economy of having repair shops of our own, are of continued force.

\$41,917 84 has been paid by us, during the past year, for work done in shops belonging to other parties.

The profits included in this amount, will alone, soon justify the erection of shops and shop-machinery of our own. \$25,902 59 was paid by us during the year to the Philadelphia and Eric Railroad Company, for our limited use of their 27 miles of road between Milton and Williamsport.

The virtual ownership of the Philadelphia and Erie Railroad, and its completion by the Pennsylvania Railroad Company, will probably prevent us from receiving the full share of traffic heretofore expected from it.

The M'Caulay Mountain coal property, and the railroad connecting it with our road, are about to be reorganized, it is hoped under favourable auspices, as they can be made valuable tributaries to our business.

The arguments used in the last Annual Report, in favor of the early construction of the branch road to your coal property continue to apply with renewed force. The sure revenue and tonnage the opening of these mines will afford to us, should be secured before the coming winter.

The Act of Assembly accepted at the last Annual Meeting of the Stockholders, to become available, requires the signatures of two-thirds of the preferred stockholders. As the arguments then presented by the Finance Committee, are conclusive on the merits and necessities of this case, the Board of Directors re-indorse them to your most earnest attention, and prompt action at this time, simply adding, that the labor and material debt of the old company, amounting to \$59,358 98, will become due from us, on the 21st of March, 1863.

Your Board have no hesitation in stating, that they believe when the several heavy expenditures and payments herein shown to be necessary and beyond our power to control are capitalized, instead of being slowly drained from the receipts of the road, which is thereby delayed of its prompt and proper development, the net earnings will the very first year thereafter, be more than sufficient to pay the interest on the debt, and contribute a just quota to a sinking fund for its extinguishment. And at the end of the second year, in addition thereto, justify the declaration of a reasonable dividend upon the Preferred Stock.

To induce the Stockholders to divide these bonds among themselves pro rata, and to make them a valuable investment, the Board proposes to set aside as a sinking fund for their redemption, the whole of the net earnings of the Branch Coal road, to be built by part of them, one half of the royalty received from the coal property of the Company, and one per cent annually on their amount, all of which shall be invested semi-annually by the trustees thereof in the purchase of said bonds, at a price not exceeding 5 per cent. above their par value.

The lumber trade between Williamsport and New York has been developed during the past few months, beyond our car capacity. As soon as the other parties interested will place their proportion of cars with us in this trade, a large business with profitable results to the line may be relied upon.

The increase of this trade, and of that to Philadelphia, together with the development of our coal property, will require from time to time, large additions to our car stock, and the purchase of several new locomotives.

The reports and statements of the Superintendent and Treasurer, herewith submitted, contain the usual detailed information concerning the operation of their several departments. The system of management and accounts now in force, works well and economically.

It is with great satisfaction the Board of Directors again state that no passenger has ever been injured upon the Catawissa Road.

The faithful, energetic and skilful discharge of duties by the several officers and employees of the Company, are thankfully acknowledged.

By order of the Board,

T. HASKINS DU PUY,

PHILADELPHIA, 308 WALNUT ST. January, 1862.

President.

### REPORT

OF THE

#### TREASURER.

Office Catawissa R. R. Company, No. 308 Walnut Street, Philadelphia, January 30th, 1862.

TO THE PRESIDENT AND DIRECTORS OF THE CATAWISSA RAIL ROAD COMPANY:

Gentlemen:—I beg leave to submit a General Statement of the affairs of the Company to January 1st, 1862, as also Transportation and Income Account, for the year ending December 31st, 1861.

Very respectfully,

WM. R. FISHER,

Treasurer.

#### REPORT

OF THE

#### SUPERINTENDENT.

CATAWISSA RAILROAD COMPANY, Superintendent's Office, Williamsport, Pa., 1st January, 1862.

T. HASKINS Du Puy, Esq., President:

SIR:—Please find below a statement of the operations of the Transportation Department of this road, for the year ending 31st December, 1861.

The business of the road, both local and through, has been less than during the previous year, owing to the stagnation of business throughout the country on most roads, except those so situated as to receive the advantage of the transportation required by the Government; but the business, both through and local, has been much larger during the last, than the first half of the year, and at the present time is larger than ever before at the same season of the year, and promises well for the future.

22,383 new cross-ties have been used in the track for repairs, which is a much larger number than the average number required annually to keep the track in good repair when once in order. The other materials used in the track, have been,

190 tons re-rolled iron, 16,875 lbs. spikes, 608 ehairs.

Large expenditures should continue to be made to put the track in good condition, and enable us to operate the road economically.

There should be at least 600 tons of new or re-rolled iron, and 30,000 cross-ties put in track during the coming season.

All the bridges on the road have been kept in repair, and it is believed, are generally in as good condition now, as at the date of last report, but the remarks therein made in reference to them, apply with still stronger force now that they have had the exposure of another year.

The High Bridges should have at least 500,000 feet of timber used in their repair during the summer, and it is absolutely essential to rebuild the North Branch Bridge at Rupert. The old bridge over the Chitisquaqua, has been replaced by a new and permanent Howe Truss Bridge.

The locomotive engines have been improved in their condition since the last report.

Engine No. 1, which was dismantled and laid aside before it came into our possession, has been thoroughly repaired, and is now doing good service as a switching engine. Engines Nos. 10, 12, 17, 19 and 20 have had new tires during the past year. I would refer you to the tabular statements accompanying this for details respecting them.

Most of our engines are old, and will still require large expenditures to put them in economical working order.

On July 1st, the new system of Fuel account, spoken of in last report, was put into practice with satisfactory results, reducing the cost of fuel per mile run, from 11 cents to  $6\frac{1}{2}$  cents.

During the month of December, our local trade, and the lumber trade from Williamsport, have very much improved and bid fair to continue good during the year. We need an increased amount of rolling stock to meet the growing wants of this trade. The number of ears remains the same as at the date of last report, but it is believed their condition has been improved. I append tabular statements showing the number and condition of the engines, and details relating to the cost of repairs, fuel, &c.

I desire in conclusion, to testify to the general faithfulness and ability with which the various officers and employees of this Department have performed their duties.

Very Respectfully,
Your Obedient Servant,
H. Stanley Goodwin,
Supt.
